Christian Cacacho, Senior Backend Developer

Aeon

Davao City, Philippines

+63-280-555-3426

Christian.CacachoG@gmail.com

Dear Mr. Cacacho,

I'm very excited to be considered for the role of Backend Developer. As someone who can learn quickly and improve the process, I strive to be a vital component of every team I join. By staying on top of deadlines, I allow ample time to fix issues that may arise last-minute during projects.

During my previous role of Trainee Developer, I was in charge of assisting in web development. I take pride in conducting myself in a professional manner when representing a company. I thoroughly enjoy getting to know the team and figuring out how best to create an impact.

Thank you for considering me for this position. I'm thrilled about getting to learn more details about the Backend Developer position. I will be committed to continuously learning, growing, and applying my skills to support the team and engage our community.

Sincerely,
Cyc O. Casiple
